

ADVANCE HEALTH CARE DIRECTIVE

Explanation

You have the right to give instructions about your own health care to the extent allowed by law. You also have the right to name someone else to make health care decisions for you to the extent allowed by law. This form lets you do either or both of these things. It also lets you express your wishes regarding the designation of your health care provider. If you use this form, you may complete or modify all or any part of it. You are free to use a different form if the form complies with the requirements of AS 13.52.

Part 1 of this form is a durable power of attorney for health care. A "durable power of attorney for health care" means the designation of an agent to make health care decisions for you. Part 1 lets you name another individual as an agent to make health care decisions for you if you do not have the capacity to make your own decisions or if you want someone else to make those decisions for you now even though you still have the capacity to make those decisions. You may name an alternate agent to act for you if your first choice is not willing, able, or reasonably available to make decisions for you. Unless related to you, your agent may not be an owner, operator, or employee of a health care institution where you are receiving care.

Unless the form you sign limits the authority of your agent, your agent may make all health care decisions for you that you could legally make for yourself. This form has a place for you to limit the authority of your agent. You do not have to limit the authority of your agent if you wish to rely on your agent for all health care decisions that may have to be made. If you choose not to limit the authority of your agent, your agent will have the right, to the extent allowed by law, to

- (a) consent or refuse consent to any care, treatment, service, or procedure to maintain, diagnose, or otherwise affect a physical or mental condition, including the administration or discontinuation of psychotropic medication;
- (b) select or discharge health care providers and institutions;
- (c) approve or disapprove proposed diagnostic tests, surgical procedures, and programs of medication;
- (d) direct the provision, withholding, or withdrawal of artificial nutrition and hydration and all other forms of health care; and
- (e) make an anatomical gift following your death.

Part 2 of this form lets you give specific instructions for any aspect of your health care to the extent allowed by law, except you may not authorize mercy killing, assisted suicide, or euthanasia. Choices are provided for you to express your wishes regarding the provision, withholding, or withdrawal of treatment to keep you alive, including the provision of artificial nutrition and hydration, as well as the provision of pain relief medication. Space is provided for you to add to the choices you have made or for you to write out any additional wishes.

Part 3 of this form lets you express an intention to make an anatomical gift following your death.

Part 4 of this form lets you make decisions in advance about certain types of mental health treatment.

Part 5 of this form lets you designate a physician to have primary responsibility for your health care.

After completing this form, sign and date the form at the end and have the form witnessed by one of the two alternative methods listed below. Give a copy of the signed and completed form to your physician, to any other health care providers you may have, to any health care institution at which you are receiving care, and to any health care agents you have named. You should talk to the person you have named as your agent to make sure that the person understands your wishes and is willing to take the responsibility.

You have the right to revoke this advance health care directive or replace this form at any time, except that you may not revoke this declaration when you are determined not to be competent by a court, by two physicians, at least one of whom shall be a psychiatrist, or by both a physician and a professional mental health clinician. In this advance health care directive, "competent" means that you have the capacity

(1) to assimilate relevant facts and to appreciate and understand your situation with regard to those facts; and

(2) to participate in treatment decisions by means of a rational thought process.
